## **EXAMINER'S AMENDMENT**

### ***Information Disclosure Statement***

The information disclosure statement filed 15 September 2005 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 for at least the following two reasons.

(1) The Information Disclosure Statement (IDS) has U.S. Patent Application Serial No. 10/642,568 listed on the caption on the front page and on the attached post card receipt so that there is no clear proof that it was actually filed in U.S. Patent Application Serial No. 10/786,600. In other words, the attached post card receipt is immaterial as not pertaining to the present application.

Furthermore, the examiner of U.S. Patent Application Serial No. 10/642,568 obviously thought that the Information Disclosure Statement (IDS) was meant to be filed in the application he was examining because he initialed each item on the PTO-Form-1449 of the Information Disclosure Statement (IDS), signed and dated the PTO-Form-1449 of the Information Disclosure Statement (IDS), and crossed out U.S. Patent Application Serial No. 10/786,600 on the top of the PTO-Form-1449 and wrote in U.S. Patent Application Serial No. 10/642,568.

(2) The present information disclosure statement does not include a copy of each of the references listed in the "Foreign Patent Documents" section as is required.

It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-

submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Linda J. Shapiro on November 28, 2005.

The application has been amended as follows:

**IN THE CLAIMS:**

The following changes to the claims have been approved by the examiner and agreed upon by applicant:

- (1) claim 17, line 1, change "6" to --16--; and
- (2) cancel claims 6-10.

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent No. 4,971,480 to Nakanishi discloses a ground hardening material injector.
